Main Features

MACHINE NAME	Unpacked MEASUREMENT	WEIGHT	CONSUMPTION	SERVICES	CANISTER	MIXER	PAYMENT METHOD
COFFEEMAR G546H KEY	1829x600x597	135kg	230V/1150W	500	5 cabinet + sugar + coffee beans	4	Configurable
COFFEEMAR G546H KEY BLUETEC	1829x600x597	132kg	230V/1150W	500	5 cabinet + sugar + coffee beans	4	Configurable

FEATURES

- High adaptability in the selection of your payment system, thanks to the presence of 2 EVA-sized holes in the peripherals section of the machine.
- With the possibility of master configuration, with integrated numeric keypad, which allows up to 4 Jofemar satellite machines, to provide an integrated and complete solution for coffee and snack products.
- All variants meet the ADA (Americans with Disabilities Act) requirement.
- Stainless steel boiler with improved insulation that allows a reduction in energy consumption.
- 2 cup size possibilities depending on the dispenser installed (maximum height 117mm).
- A cup detection photocell that allows the user to use their own cup instead of getting a cup from the machine.
- Coin payment option thanks to the JF8.
- New 4.3" color graphic display.
- Self-calibrating of the flowmeter.
- Articulated waste buoy, allowing for better removal and cleaning operation.
- Improved accessibility to the waste area to facilitate removal and cleaning.

DESIGN

New design that allows integration with the V8 Range. With its new graphic display and its elegant design with multiple colors and combinations with each other.

- Payment, selection and delivery systems of an easily accessible height.
- Lighting in the introduction and collection of coins.
- Backlit keyboard for low light environments.
- 36x56 mm display label that allows a more attractive presentation of the products.
- LED lighting in the glass collection area.

OPTIONS

- It allows dispensing coffee without the need for a water connection, for this it has a water can inside.
- Option to put the Glass front, where the entire surface of the machine is covered with glass.
- Support for normal or Rielda locks.
- Option of having a BT11 or other standard type of banknote reader.
- User validation card reader, such as our J-140.
- Option to put 70mm or 80mm sockets.
- Palette dispenser.
- Fresh brew option.

PROGRAMMING

- Option to extract data with J-SUITE via J-LINK
- Display with the possibility of programming the size of texts and images.
- The control unit is incorporated into the display module, allowing a simple upgrade by using the USB port.
- DEX connector as the only solution for accounting and telemetry extraction.
- Programming button to access the different menus of the machine.
