ORION TOUCH + CONSOLA G23

FEATURES

- Touch screen that allows you to customize the ingredients of your final product when placing your order.
- **Pressure valve** in the brewing group **to maintain constant pressure** throughout the brewing cycle.
- **Motorized water** distributor without solenoid valves.
- Aluminum **boiler**, which prevents corrosion and improves efficiency.
- **Self-cleaning** of the mixing circuit and product outlet: manual or automatic (programmable).
- **Customization of coffee recipes** on the spot via a touch screen just before dispensing.
- **New product containers** that increase container capacity, minimize leaks, improve cleanliness, and prevent product clumping.
- **Screensaver:** When the machine is idle, it can display an image or a slideshow of images uploaded by the user as a screensaver.
- **Multi-language:** The end user can choose the machine's language. Possibility to add multiple languages for the end user to choose from.
- **Constant temperature control** in the water boiler.
- **Coffee grinding group** (proprietary group).
- Espresso coffee group with **high permeability showers**, which prevent blockages and eliminate the need for a group self-cleaning system.
- **Easy cleaning** and maintenance of removable elements.

DESING

Our Orion range now features a fully customizable screen to match your corporate image. The perimeter light and touch screen create a unique and immersive environment for the end user.

- **RGB LED lighting** around the screen, fully customizable to create a warmer atmosphere.
- 10'1-inch **touch screen**.
- **Front area** with tinted glass to add a touch of innovation and elegance.
- **Easy cleaning and maintenance** thanks to its design and removable elements.

OPTIONS

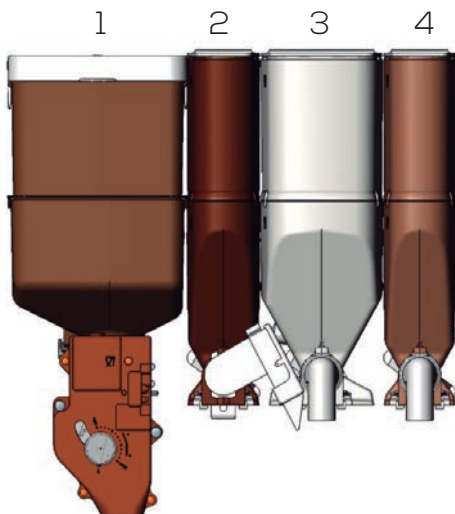

- **Console cabinet** option with a bill acceptor and a capacity of 230 servings.
- **Countertop console** option with a capacity of 170 cups (85 per channel) and a central guided drawer. The outer diameter must be between 70 and 74mm.
- **Total customization** capability for screen design, product labels, and perimeter LED light.
- **Autonomous water kit** (25L).
- **Telemetry** via J-LINK and online management software J-SUITE. External console water filters: descaler or flavor filter.
- **Screensaver option:** Ability to display an image or a slideshow of images uploaded by the user as a **screensaver**.
- Autonomous tank **5L**.

PROGRAMMING

- **On-site general programming** via touch screen, USB memory, or telemetry through the J-LINK terminal and Jofemar's online management software J-SUITE.
- **Customization of product recipes** on-site via the touch screen at the time of purchase, or by loading them through USB memory.
- **Ability to program interface colors and buttons**, as well as the perimeter light, thanks to its RGB LED for complete customization.
- **Storage and extraction of accounting data.**

CONTAINER

New product containers!
