COLOR

TAOS MAX

TAOS MAX elevates the point of sale to another level. Its compact and elegant design adapts to any environment, respecting the aesthetics of the machine and providing a modern and functional presence. The 15.6" touchscreen allows for advanced sales interfaces, maintaining almost total visibility of the product inside, which improves the user experience and enhances the presentation.

Main features

MACHINE NAME	Unpacked MEASUREMENT	WEIGHT	CONSUMPTION	MACHINE CONTROL	APPLICATION	KEYBOARD	PAYMENT METHOD
TAOS MAX	754x277x1094	22 kg	12VDC/3A	Up to 4 machines	Vending	15,6" Touchscreen	Bank card holder

*Our TAOS MAX adds to any satellite machine: 73mm at the front, 31mm at the rear and 82mm at its overall width.

VISION IRIS V8 + TAOS MAX

FEATURES

- Advanced control unit that overlaps any Jofemar satellite machine.
- It includes a 15.6" touch screen, for the selection of products, visualization of detailed information of all of them, as well as the credit.
- It includes electromagnetic closure and means of payment with the latest advances in anti-fraud systems. In addition, it incorporates programmable safety systems that prevent the sale of products unsuitable for consumption, control the temperature and their expiry dates.
- It allows you to control the cutting temperature of the vending machine.
- Continuous self-testing of operation.
- Security, both in payments and in the sale of products.
- Prior integration, and optionally, it allows the use of customer loyalty cards.
- Automation of management through telemetry in a web environment. Optimal traceability of products and stocks.
- Reliable data capture.
- Control unit with integrated payment systems capable of managing up to four dispensing units.
- Interactive navigation. Product selection based on categories and support for multiple languages and sales modes.

DESIGN

Our Taos Max is designed to be placed on the side or between our satellite machines and from the TAOS itself to control up to four machines at the same time.

- Possibility of installing the module at three different heights to adapt to the customer's needs and the possibility of complying with ADA regulations.
- Module door with electromagnetic closure with code opening for greater convenience when recharging the machine.
- Module cabinet adaptable to all satellite machines in the current Jofemar range.
- Access to the interior of the door through a locked lid.

OPTIONS

- Optionally, J-LINK.
- Possibility of incorporating different types of bank card readers.
- Option to replace SBC with PC for the incorporation of software customized by the customer.
- Possibility of incorporating up to two peripherals in the front door.
- Communications router to manage screen images from J-SUITE.
- Possibility of ADA compliance thanks to its 3 height positions.

PROGRAMMING

- Compatible with the latest telemetry systems for comprehensive machine management remotely.
- Recording of data and programs and extraction of accounts via USB.
- Compatible with Jofemar's EasyFlash handheld terminal for accounting extraction.
- DEX port with RS232 protocol for accounting extraction.
