VISION SATELLITE V8

Vision Satellite is the ideal solution to expand your facility's dispensing capacity in an efficient and versatile way. Designed to function as a complementary module to the Vision V8 or Taos, which allows doubling the number of available selections while maintaining seamless and consistent integration. Its modular structure makes it easy to adapt to different configurations and needs, optimising space and the shopping experience without the need for lifting systems.

VISION SATELLITE V8

VISION SATELLITE V8

FEATURES

- **Capacity** up to 6 trays of up to 10 channels and 2 trays of up to 7 height-adjustable channels.
- Detection of correct sales by means of photocells.
- Continuous self-test of operation.
- Cooling unit on SATELLITE R290 V8 and SATELLITE REFRIG models. V8
- Operation in environments with **65% maximum humidity**.
- **Expiration date programming** by selection number or channel. It inhibits the sale of these products.
- Flexible configuration. **Easy to change the position of channels and partitions without tools.**
- **Intelligent or manual auto-adjustment** of the push force for each channel, adapting to the characteristics of each product.
- **Multi-sales system**, capable of delivering several products in a single manoeuvre.
- **FIFO system** (First in First out), which ensures continuous product renewal.

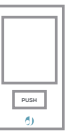

DESIGN

Our Vision Satellite V8 machines, thanks to their adjustable channel system, have the advantage of adapting to any type of product. In addition, they have cutting-edge technology and an elegant and innovative design, resulting in a machine with high capacity and great product control.

- Elegant and robust design with four different finishes for the door (white, black, silver or Bluetec) and with the option of **customization with corporate branding**.
- Thermally insulated front **safety glass** with 16mm argon chamber of 1100x638 mm, which allows a wide view of the product and offers protection and great insulating capacity.
- **LED lighting** of the product in white color.
- Modular structure in **furniture protected against corrosion and rust**.

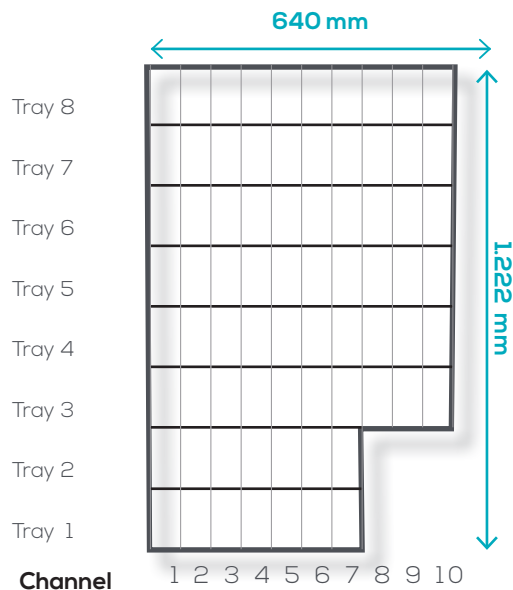

OPTIONS

- Assembly of **different types of locks** according to the customer's needs.
- **Polycarbonate protection** installation for the front glass.
- It can **incorporate a cooling group**.
- Internal **heater kit** capable of keeping the products inside the machine up to 20°C above the ambient temperature. It prevents accidental freezing of products due to external environmental causes and tempers products that require it as long as they do not saturate the interior with moisture.

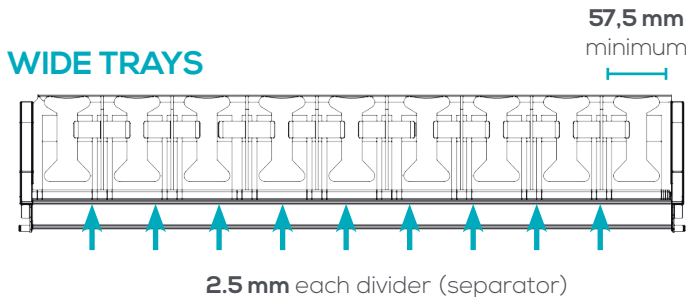

PROGRAMMING

- Machine control by means of a control module or a master machine connected through an RS485 communication port, both commanded by a JSD device, capable of simultaneously controlling four vending machines or three machines and four locker modules with a total of eighty compartments.
- In SATELLITE R290 V8 and REFRIG. V8, possibility of **programming the interior temperature** between 2°C and 25°C through the control machine or control module.

WIDE TRAYS

CHANNEL DEPTH

HEIGHT TABLE

Holes visible	Distance between trays	Product height pusher	Product height on pallet
8	135	94,5	76
10	162	121,5	103
12	189	148,5	130
14	216	175,5	157
16	243	202,5	184
18	270	229,5	211
20	297	256,5	238
22	324	283,5	265
24	351	310,5	292
26	378	337,5	319

Flexibility in tray between 1 to maximum of 10 motors.

TELEMETRY

Our Jofemar electronic system **J-LINK** offers a wide range of functionalities to all our machines. One of them is the ability to use J-SUITE, our comprehensive and unified solution for machine management that allows you full control of the machine from anywhere in the world.

ADVANTAGES

- Compatibility with all Jofemar machines. You can use J-SUITE with all our products. Total stock control.
- Sending of technical and administrative alerts.
- Remote control of the machines from your computer, tablet, or mobile phone.
- Compatible with other payment systems.
- Option to have a closed-loop card reader.
- Compatible with non-Jofemar machines through standard protocols.
- Maximum data storage security.
- Automatic daily data backups.
- Full availability at any time.
- Access to sales statistics.
