COFFEEMAR G546H TOUCH

Coffeemar G546H Touch transforms the way you choose and enjoy coffee, maintaining the quality and consistency in each cup. Its touch screen facilitates interaction and makes each selection clearer and faster. In addition, it provides added value to the coffee point, making it more attractive and dynamic. An experience that invites you to look, choose and repeat.

Main features

MACHINE NAME	Unpacked MEASUREMENT	WEIGHT	CONSUMPTION	SERVICES	CANISTER	MIXER	PAYMENT METHOD
COFFEEMAR G546H TCH	1828x600x613	153 kg	230V / 1180W	500	5 cabinet + sugar + coffee beans	4	Configurable

FEATURES

- 21.5" capacitive touchscreen integrated into the front, with support for dynamic multimedia content and an advanced user interface.
- The interface integrates accessibility functionalities that optimize usability and allows the management of external vending machines and their products from the screen itself.
- Accessibility button integrated into the touchscreen that makes it easy to use for all users.
- High adaptability in the selection of your payment system, thanks to the presence of 2 EVA-sized holes in the peripherals section of the machine.
- Configurable cup dispenser for diameters of 70 mm or 80 mm, allowing two cup size options depending on the installed configuration (maximum cup height: 117 mm).
- Payment systems compatible with wallet (JF8), BT11 wallet, card holder and card reader.
- A cup detection photocell that allows the user to use their own cup instead of getting a cup from the machine.
- Liquid waste bucket with articulated buoy, which allows a better removal and cleaning operation.
- Improved accessibility to the waste area to facilitate removal and cleaning.
- Remote customization of the screen and LED lighting through J-SUITE, allowing centralized configuration of content, messages and visual effects.

DESING

Coffeemar G546H Touch integrates technology into a clean and balanced design, where the screen becomes the visual axis of the machine and the central point of interaction.

- Integrated display as the visual axis of the machine, concentrating the user's interaction and attention.
- Clean and balanced design, with a modern and minimalist aesthetic, reinforced by customizable RGB perimeter lighting that allows the machine to be adapted to each environment.
- LED lighting in the glass collection area.

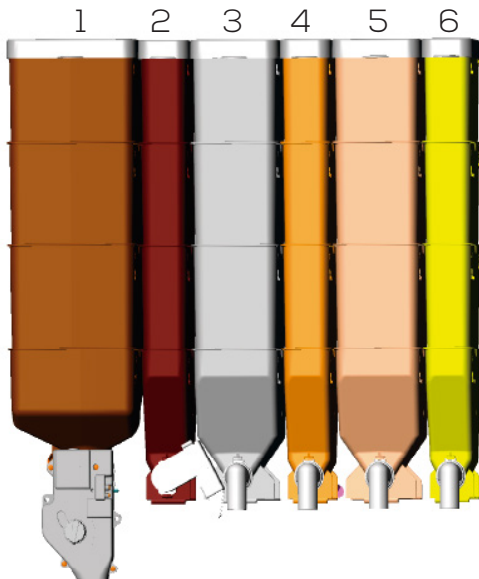

OPTIONS

- It allows dispensing coffee without the need for a water connection, for this it has a water can inside.
- Possibility of equipping standard security lock or lock with reprogrammable keys.
- User validation card reader, such as our J-140.
- Coin payment option thanks to the JF8 and BT11 wallet.
- Dispenser available for 70mm and 80mm diameter cups
- Palette dispenser.
- Bypass kit to drain, which avoids maintenance of the waste bucket.

PROGRAMMING

- Possibility of video playback, product presentation screens and advanced effects.
- Option to extract data with J-SUITE via J-LINK.
- Option to customize the LED screen and light from J-SUITE.
- The control unit is incorporated into the display module, allowing a simple upgrade by using the USB port.
- DEX connector as a solution for accounting and telemetry extraction in EVA-DTS format.
- Programming button to access the different menus of the machine.

CANISTER

	CANISTER	CAPACITY (gr)	SERVICES
